RF Industries Increases Regular Quarterly Dividend to \$0.07, Declares Special Cash Dividend of \$0.07 Per Common Share

San Diego, California, March 18, 2013 – RF Industries Ltd. (NASDAQ: RFIL) announced that its Board of Directors has increased its regular quarterly cash dividend by 40% from \$0.05 per common share to \$0.07 per common share, and that it will pay this increased dividend starting in this current quarter. Since the Company previously accelerated payment of the \$0.05 per share dividend for this fiscal quarter in December 2012, this new \$0.07 per share dividend is deemed to be a special dividend. RFI has approximately 7,500,000 common shares outstanding.

The special cash dividend will be payable April 16, 2013 to shareholders of record as of April 1, 2013.

“Our decision to pay this one-time special dividend reflects the Company’s strong cash position and balance sheet. We are pleased to have this opportunity to share our success with our shareholders,” said Howard Hill, CEO of RF Industries.

About RF Industries

RFI manufactures, designs and distributes Radio Frequency (RF) connectors and cable assemblies, medical cabling products, RF wireless products and fiber optic cable products. Coaxial connectors, cable assemblies and custom microwave RF connectors are used for Wi-Fi, PCS, radio, test instruments, computer networks, antenna devices, aerospace, OEM and Government agencies. Medical Cabling and Interconnector products are specialized custom electrical cabling products for the medical equipment monitoring market. RF Wireless products include digital data transceivers for industrial monitoring, wide area networks, GPS tracking and mobile wireless network solutions. Fiber optic cable, connector and harness products serve computer, aerospace, computer networking and specialty applications.
