## RF Industries to Join Russell Microcap Index

**San Diego, California, July 2, 2013 – RF Industries, Ltd. (NASDAQ: RFIL)** announced that it has joined the Russell Microcap® Index according to the list posted July 1, 2013.

Membership in the Russell Microcap Index, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes.

“We are very pleased to have been selected for inclusion on the Russell Microcap® Index. During the past year we have achieved significant revenue growth and increased profitability as we’ve successfully implemented our long term strategy to grow our position as a leading provider of full service, custom interconnect solutions to the wireless infrastructure industry. We believe our addition to the Russell Microcap® Index is recognition of our efforts to date and validation of our capabilities,” commented Howard Hill, Chief Executive Officer of RF Industries.

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for both passive and active investment strategies. Russell calculates more than 700,000 benchmarks daily covering approximately 98 percent of the investable market globally, 80 countries and more than 10,000 securities. Approximately \$4.1 trillion in assets are benchmarked to the Russell Indexes.

Annual reconstitution of Russell Indexes captures the 4,000 largest U.S. stocks as of the end of May, ranking them by total market capitalization to create the Russell 3000® Index and Russell Microcap. These investment tools originated from Russell's multi-manager investment business in the early 1980s when the company saw the need for a more objective, market-driven set of benchmarks in order to evaluate outside investment managers.

Total returns data for the Russell Microcap and other Russell Indexes is available at <http://www.russell.com/Indexes/performance/default.asp>.

## Forward-Looking Statements

*This press release contains forward-looking statements with respect to future events which are subject to a number of factors that could cause actual results to differ materially. Factors that could cause or contribute to such differences include, but are not limited to: changes in the telecommunications industry; the operations of the Cables Unlimited division which was acquired in June 2011; and the Company's reliance on certain distributors for a significant portion of anticipated revenues. Further discussion of these and other potential risk factors may be found in the Company's public filings with the Securities and Exchange Commission ([www.sec.gov](http://www.sec.gov)) including its Form 10-K. All forward-*

*looking statements are based upon information available to the Company on the date they are published and the Company undertakes no obligation to publicly update or revise any forward-looking statements to reflect events or new information after the date of this release.*
